## Introduction

---

Evergreen token is the worlds first environmental sanitation defi token combining crypto and the environment for the safety of lives, plants and animals across the globe, preventing pollutions and keeping the world evergreen.

# OUR VISION

SINCE MAN CAN NOT DO WITHOUT THE ENVIRONMENT, WE INTEND TO PLAY A VITAL ROLE IN MAKING MANS ENVIRONMENT A BETTER PLACE TO BE THROUGH COMBINING CRYPTO AND THE ENVIRONMENT.

WE ALSO INTEND TO BE INTEGRATED INTO THE AFFAIRS OF WORLD WIDE ENVIRONMENTAL GOVERNING BODIES TO BE RECOGNISED WORLD WIDE THROUGH OUR CHARITY, PARTNERSHIPS AND TREE PLANTING TO MAKE MANS ENVIRONMENT SAFE AND EVERGREEN.

## EVER GREEN TOKEN

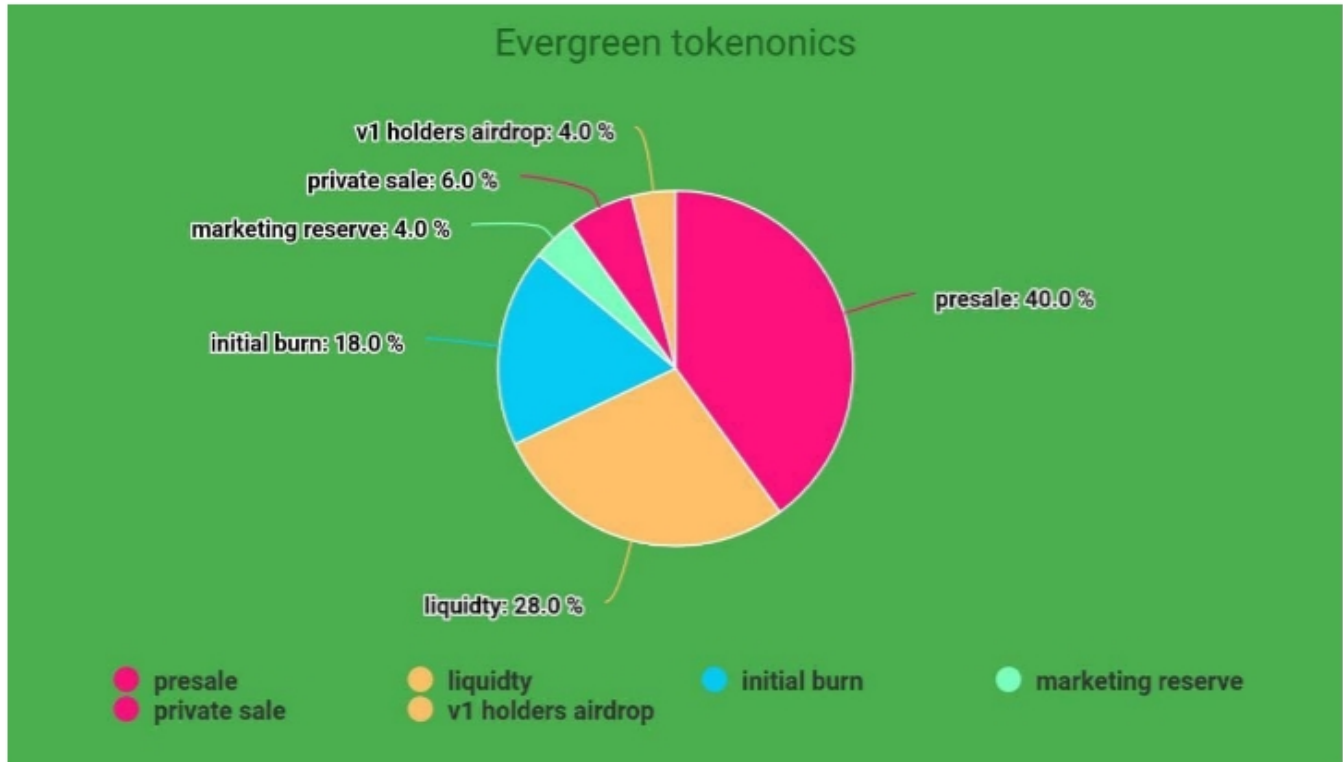

## WHY CHOOSE EVERGREEN TOKEN

Evergreen does not only intend in keeping our environment green, the contract codes are written in such a way to keep the chart evergreen hence creating a safe environment to all investors with our innovative auto and manual buyback functions

Evergreen have always kept their loyal investors interest in mind by rewarding each holder a whooping 6% reflection from every transaction that occurs in the contract. This means that you earn more tokens in your wallet as a reward for holding evergreen token

Evergreen also creates a safe environment for its investors by ensuring liquidity pool is locked for a long time to avoid rug pull and also creating a utility for the token to encourage the holders to hold for a long time
